

**Letter of Appreciation for ICIMOD Colleagues**

Dear Kamal, Sanjeev and Neha,

Thank you so very much for appreciating our efforts, and for those words of encouragement for our future endeavour. We would like to extend our heartfelt gratitude to the team, for having provided us with such an opportunity to be a part of such wonderful training programme. It has been a wonderful experience to learn so many new techniques and things about, during the entire course of the programme. We gratefully acknowledge the generous assistance and valuable information provided to us by your team.

The tools and techniques to facilitate the community people to collect both social and scientific data for preparation of the village level integrated PNRM plan shared by your team is essentially a helpful tool.

We extend our heartiest thanks to the DFO, Ranger, and all people associated with the meeting held at the Api-Nampa Conservation Area. We would always remain grateful and immensely indebted for having provided us such an opportunity, and looking forward with high anticipation to such programme in near future. We hope we will still have a chance to work with you and your team in future. Thank you indeed and congratulations once again for conducting, and taking initiative for such wonderful training programme.

Yours sincerely,

Dr. Aarti Kala

(On behalf of participants from WII, GBPIHED and CHEA)
