

Summary of Workshop Evaluation
Advance Econometrics: Dummy Dependent Variables, Survey Design and Evaluation Method
3rd – 7th July, 2007
Course Evaluation

S.N	Questions	Respondents Grades				
		Low		High		
		1	2	3	4	5
1.	The objective of the course was clearly stated.				5	21
2.	The objective of the course was fully achieved.			2	19	5
3.	The course content was of high academic standard.				8	18
4.	The course content was relevant to your teaching or research interest.				6	20
5.	The course has taught you many things that you expect to apply in your job back home.			2	9	15
6.	The reading material provided was useful and adequate.			1	19	5
7.	Please rate how useful each individual session was:					
a.	Introduction to Dummy Dependent Variables, Regression, Logit and Probit			1	6	13
b.	Censored and Truncated Data (Tobit)			2	5	13
c.	Introduction to STATA				5	15
d.	Count Data (Poisson, Negative Binomial), Heckman two stage			4	5	11
e.	Multinomial Logit			1	7	11
f.	Panel, Regressions with Limited Dependent variables			3	8	11
g.	Survey Methods: Sampling		1	3	7	15
h.	Questionnaire Design		1	5	10	10
i.	Survey Design		1	4	9	12

j.	Program Evaluation – Quantitative Approach – I		1	2	11	12
k.	Endogeneity issues in empirical research – II	1	1	5	9	9
8.	Please rate the assignments					
a.	Probit			2	6	13
b.	Logit			1	7	13
c.	Tobit			2	5	14
d.	Combined Logit and Probit				7	14
e.	Poisson			3	6	12
f.	Heckman two stage			1	7	13
g.	Multinomial Logit			3	7	11
h.	Panel Data			3	8	10
i.	Endogeneity	1		4	8	11
9.	SANDEE secretariat staff provided with timely logistical information prior to the course.				1	25
10.	Please rate the overall efficiency and co-operation that you received from the secretariat staff.				2	24
11.	<p>What other Environmental Economics related course would be useful to you?</p> <ul style="list-style-type: none"> ✓ Time Series Data ✓ Valuation of Environmental Services ✓ CGE Modeling ✓ Basic Econometrics based of STATA ✓ Evaluation methods of environmental and development program ✓ Experimental Markets ✓ Environment and Poverty related issues ✓ Economics of Climate Change ✓ Intensive course on discrete choice model ✓ Method of CBA ✓ Valuation methods with applications ✓ Use and application of GIS in Environment related issues 					

12.	<p>Any other comments</p> <ul style="list-style-type: none">✓ With assignments I didn't get any time to thoroughly think about and assimilate all the lectures given the first two or three lecture sessions every day.✓ Excellent secretariat services.✓ I love SANDEE. I will love SANDEE because I believe 'Love is not because of but inspite of', I will never dishearten my beloved.✓ More time required to conceptualize.✓ I strongly request SANDEE to organize a basic econometrics course particularly focusing on the low level of knowledge on econometrics among Nepalese participants.✓ If the advance workshops are arranged in tandem with R&T it may be useful if they are informed about the possible reading materials before the course.✓ There should be a course linking questionnaires, variables and estimation.✓ More time needed for program evaluation and qualitative approach should have been included.✓ The course was really helpful but time for practice and assignment was not enough.✓ The course was short for covering the topic, it is better to demand for term paper for effectiveness of program. This is suitable in long-term course.✓ It will be better if intensive course on econometrics for two weeks
