

Second Mountains Connect Interregional Workshop |

20-22nd of April 2026

Thimphu, Bhutan

Last update: 11 February 2026

Agenda

Advancing interregional cooperation and learning on regional mountain governance, resource mobilization and science-policy interfaces

Objectives and Intended Outcomes

The overall objective of the interregional exchange workshop is to re-connect mountain adaptation stakeholders from the **Alps**, the **Andes**, the **South Caucasus**, the **Carpathians**, **East African Community**, the **Hindu Kush Himalaya** and beyond. It aims to address identified needs and gaps of respective regional mountain range governance stakeholders.

By offering an innovative space for discussing the most recent knowledge on adaptation and governance in mountains, intended **outcomes** of the workshop include

- Common **mountain range governance needs and approaches are elaborated**
- New **partnerships between mountain regions**, including secretariats, are initiated and existing ones strengthened
- Latest **scientific activities and governance aspects** relevant to data and monitoring are **discussed with policy stakeholders**
- Stronger **interregional collaboration** and joint efforts for promoting mountain

Regional partners:

CONDESAN
Consortio para el Desarrollo Sostenible
de la Ecorregión Andina

for improving them along identified seven governance dimensions¹

- Capacities of participants on **strengthening resource and funding base** for regional governance and collaborative action are further developed

Possible **outputs**

- Key messages on the importance of regional collaboration and science-policy frameworks for increased adaptation
- Briefs on i) resource mobilization and funding for regional mountain range governance mechanisms ii) closing the observation and data sharing gaps in mountain regions

areas at the **global policy level**, especially the UNFCCC and 5 Years of Action for the Development of Mountain Regions, are discussed and **tangible entry points** identified

- Visual materials (e.g. video) for communication and outreach
- Revised mountains-connect.org page with additional resources and knowledge available to mountain range governance stakeholders

Main benefitting audiences include policy stakeholders, technical staff of national authorities and institutions responsible for sustainable mountain development, and the development community
